Product information

The O&M PS Balm 100g is the ideal care product for dry, damaged or colored hair. The rich balm effectively protects the hair from the effects of heat from hairdryers, straighteners or curling irons and at the same time provides intensive care and suppleness.

The combination of camelina oil, macadamia nut oil and plant proteins strengthens the hair structure, moisturizes and gives the hair a natural shine. This keeps hair healthy, supple and easier to comb - without weighing it down.

- Effective heat protection for styling tools up to 230°
- Strengthens the hair and prevents breakage
- Provides moisture, shine and silky softness
- Vegan, cruelty-free and free from sulphates, parabens, phthalates and gluten

Application:

- Rub a small amount of the balm into the palms of your hands.
- Work evenly into towel-dried hair, especially lengths and ends.
- Then blow-dry as usual or use styling tools.
- Can also be used sparingly on dry hair for extra shine if required.

With the O&M PS Balm 100 g you protect your hair from heat and at the same time give it care, shine and suppleness - ideal for healthy-looking, strong hair every day.
