The **Gamma+ Moving Blade DLC GOLD SLIM DEEP** combines excellent cutting performance with a striking design and technical sophistication. This professional cutting blade (cutter) is manufactured using proven Black Diamond Carbon (DLC) technology and is further enhanced with a gold finish. The Deep-Tooth design is specifically engineered to efficiently grip large amounts of hair, making it the ideal choice for thick, frizzy, or dense hair.

Thanks to its "Slim" profile, the blade is lighter, which supports motor speed and reduces vibrations. The DLC coating ensures an extremely smooth surface that minimizes friction and keeps the blade cool even during continuous use. The gold finish not only looks elegant but also provides excellent contrast against the hair, which enhances cutting precision.

Product information

Features:

- Black Diamond Carbon (DLC) with gold finish: Maximum hardness, corrosion protection, and elegant design.
- Slim Deep-Tooth Design: Deep teeth for maximum hair removal and quick volume reduction.
- Stay Cool Technology: Minimal heat build-up for a comfortable feel on the skin.
- High Contrast: The gold color makes the blade easier to see in dark hair.
- Universal compatibility: Fits most Gamma+ and StyleCraft hair clippers.
- Precision Performance: Ideal for “bulk removal” and powerful cuts.

Usage:

- Replace the existing movable blade with the GOLD SLIM DEEP DLC.
- Perfect when combined with a fixed TAPER or FAPER blade for maximum power.
- Can be set to “Zero-Gap” for extremely sharp cutting edges.

Care/Note:

- To maintain the gold finish and sharpness, clean the blade regularly and treat it with high-quality blade oil.
- After use, thoroughly remove any residue from between the deep teeth.

Our Tip:

The Gold Slim Deep is the “upgrade” for anyone who wants a powerful clipper that also serves as a visual highlight in the salon. The gold finish ensures unbeatable visibility when cutting dark hair.
